

JUNE 30TH @6PM – 7PM

Discipline Agile-What is it?

We all know that Agile has become a predominate buzz word in Project Management, especially with accelerated technology advancements and an increased WFH business model. But have you heard of Discipline Agile? This is the new Agile Framework that PMI has adopted. The Disciplined Agile (DA) tool kit is designed to be an inclusive and engaging Agile Framework. Join Chastine as she presents the foundations of DA, describes the many benefits and if it could be right for you and your team.

Chastine Lynch lives in Anchorage Alaska where she enjoys hiking and camping with her husband of 10 years. She has been working in Project Management in the Telecommunication industry for over a decade now. She has a BS in Business Administration, also has PMP and Discipline Agile Senior Scrum Master (DASSM) certifications from PMI as well as Six Sigma Black Belt.
